

DEB Notice 062906

BCOM Internal Service Fund Billing Rate

Since the conversion of the Bureau of Capital Outlay Management to an Internal Service Fund entity in January 1, 2003, except for an adjustment in April, 2003, for travel expenses which raised the rate from \$92.00 to \$95.00 per hour, there have been no rate increases. Expenses have increased over the past 3 ½ years, but because of a positive operating fund balance, no rate increase was requested; rather the fund balance was spent down.

Effective July 1, 2006, the Joint Legislative and Audit Review Commission approved a rate increase to \$114.00 / hour.
