

**DEB Notice 110310 – Parking Illumination**

**RE: CPSM 916.3 Lighting Levels**

**Effective: November 3, 2010**

Insert the following after first paragraph of CPSM 916.3:

Parking Structure (Garage) Lighting

Artificial lighting shall be provided in areas/levels of parking structures in accord with IESNA RP-20-98, Chapter 10, Table 2. Provide the top level of the structure (level open to the sky) with an illuminance value equal to the illuminance value of Basic areas.

Although VUSBC illuminance criteria may be less for certain areas, IESNA recommended minimum illuminance values shall be used to achieve enhanced safety and security.

Parking Lot Lighting

Artificial lighting shall be provided in parking lots in accord with IESNA RP-20-98, Chapter 4, Table 1. Use enhanced security column values unless directed otherwise by the Agency.
