WHAT IS NAVIGATE NEWBORN SCREENING?

Navigate Newborn Screening is a free, learning opportunity that gives families information on one of the most common tests newborns get - newborn screening. The module can help families just learning about screening as well as those looking to be leaders in this system.

In this module, you will learn about:

- The newborn screening process
- Newborn screening results
- Types of conditions detected
- Questions to ask your healthcare provider
- How to tell your newborn screening story
- Additional newborn screening resources

WHY LEARN ABOUT NEWBORN SCREENING?

- Newborn screening is a state-run public health service that ensures all babies are screened for certain conditions that can cause serious health problems.
- Newborn screening usually happens when your baby is between 24 and 48 hours.
- In the U.S, all states require newborn screening, but not every state screens for the same conditions.
- Only 1 in 3 people can correctly identify the definition of newborn screening.

BENEFITS OF PARTICIPATING

- Learn about the most common screening test
- Gain leadership and advocacy skills
- Options to attend national conferences or meetings
