Thanks for Joining Us! August BUG Meeting Playback

We covered a lot during the August 14th Buyer User Group! Here's a recap of what you'll hear during the meeting playback...

- Single Sign-On
- Supplier Subcontractor Payment Feature
- eMall Training - Online!
- Buyer Survey Results
- Vendor Account Changes (more on that below also!)

[Click Here
for the BUG
Meeting
Playback](#)

And more!

NEW Vendor Account Changes Coming Next Week!

Here's a few highlights...

Better Business Opportunity Matches

We're moving beyond solely matching businesses to bidding opportunities by commodity code. A new feature is being introduced to allow businesses to rate their invitations by giving a thumbs up/down. The technology also factors in the types of invitations the business responds to. The more a business interacts with eVA, the "smarter" eVA will become about the types of opportunities best match that business.

Changes to Email Notifications

We're replacing individual email notifications for business opportunities with a once daily, summary email. If a business would still like to receive individual notifications, they can download the eVA Mobile 4Business app and enable push notifications for their mobile device. They can also log into their eVA Vendor account at any time to access a full list of their Leads.

Additional enhancements have been made, such as adding a Favorite feature for business opportunities. Read more about the Favorite feature and the full announcement on the eVA website (www.eVA.virginia.gov), *Vendor Login*.

Announcement will be posted by Monday, August 26th
